

PROJECT TITLE

Concentrated Solar Power ERANET First Cofund Joint Call Fullproposal Template

TOPIC

1. Advanced linear Fresnel technology

SUBTOPIC

1.2. Develop plant engineering, for full operation control in clear skies and variable solar radiation days, start-up and shutdown operation, night time freezing protection, including drain-down gravity assisted strategies., 1.5. Optimization of the (modular) thermal storage, its integration and operational requirements in the system, in order to improve scalability and reduce freezing risks., 1.8. Development of a library for industrial needs and creation of a complete model in order to define process control.

PROJECT DURATION

36 Months (10 / 2019 to 09 / 2022)

TOTAL REQUESTED FUNDING

751200 €

TOTAL COSTS

974800 €

A. PUBLISHABLE SUMMARY OF PROJECT PROPOSAL

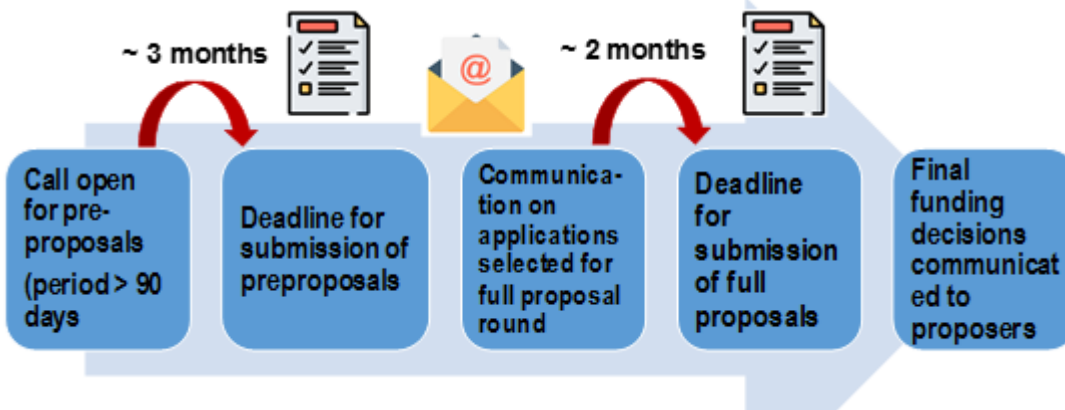

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Please enter a short summary of your project here.

You have the opportunity to upload up to 4 images in sections A to E. All pictures need to be uploaded in section "image upload". To insert them, you enter the place marker "[[figureX]]" into your text (where the image should appear). By replacing the X with the number of the image you create the link to the image.

For example (Figure 1) is uploaded under images exist and can therefore be referenced here with the command

Max file size: 600px x 600px, 2MByte Allowed formats are jpg, png or gif

This information is required for submission. Max. 2,000 characters

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

B. OBJECTIVES AND TARGETS

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Scientific, technological and commercial objectives and challenge.

Give evidence relating to the scientific, technological and commercial objectives and challenges of the project, outlining:

- Overall aims and objectives of the projects,
- Key Performance Indicators (see SET-Plan and related Implementation for CSP / STE) and relevant targets to be achieved in the project.
- Scientific, technical and commercial challenges

This information is required for submission.

You have a maximum of 5,000 characters.

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

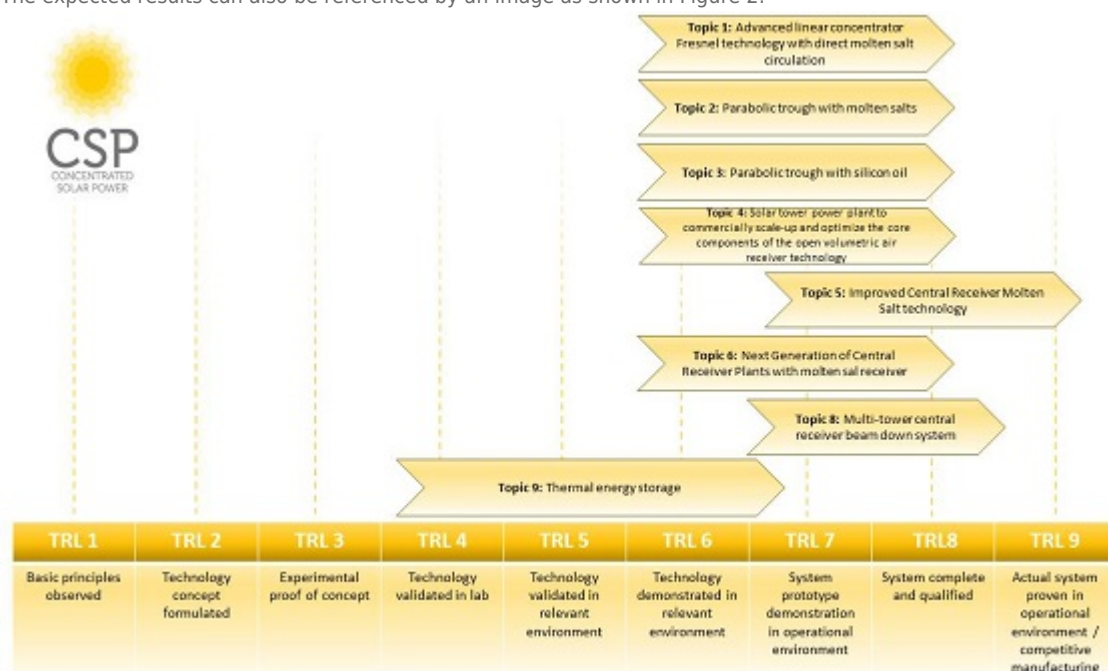

C. EXPECTED RESULTS

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Innovation or innovation potential, economic and environmental benefit, commercialization, major advantages / progress versus state of the art thanks to the project proposed, progress with respect to Technology Readiness Level (TRL) from start to end of project (according Horizon2020 terms), contribution to achieving the objectives of the SET-Plan.

The expected results can also be referenced by an image as shown in Figure 2:

This information is required for submission. You have a maximum of 3,000 characters

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

D. TECHNOLOGY READINESS LEVEL (TRL)

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Please give the Technology Readiness Levels (TRL) at the beginning and at the end of the project.

a) TRL at the beginning of the project

b) TRL at the end of the project

TRL 1 – basic principles observed

TRL 2 – technology concept formulated

TRL 3 – experimental proof of concept

TRL 4 – technology validated in lab

TRL 5 – technology validated in relevant environment (industrially relevant environment in the case of key enabling technologies)

TRL 6 – technology demonstrated in relevant environment (industrially relevant environment in the case of key enabling technologies)

TRL 7 – system prototype demonstration in operational environment

TRL 8 – system complete and qualified

TRL 9 – actual system proven in operational environment (competitive manufacturing in the case of key enabling technologies; or in space)

You have a maximum of 1000 characters.

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

E. DESCRIPTION OF PARTNERS

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Please give a short description of all partners involved and their role in the project:

Founding year

Number of employees

Turnover in million Euros (MEUR) p.a.

Qualification related to the Project

Role in the Project

Additional information (optional)

You have an overall maximum of 5000 characters.

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

F. OUTLINE OF WORK PLAN

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Please outline the following:

- Project structure
- Role of each partner
- Relevant expertise, resources, manpower
- Monitoring and management of the project

The individual work package description with milestones and deliverables is requested in the section "Work packages". Your data from the preproposal are transferred to section G. Work Packages.

This information is required for submission. In Addition you have the possibility to upload tables in the section "Document upload"

You have a maximum of 5,000 characters.

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

H. TRANSNATIONAL AND ADDED VALUE (TAV)

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

Please outline the Relevance to CSP-ERA.NET / SET-plan and Transnational Added Value:

- Relevance of the project to the CSP-ERA.NET topics
- Scientific/technical/industrial/commercial expertise of the consortium partners which is relevant for the success of the project
- Value of national subprojects
- Added value of transnational cooperation

This information is required for submission.

Your data from the preproposal are transferred to the full proposal. Please complete this section as required.

You have a maximum of 3000 characters.

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

I. IMPACT OF PROJECT

* modified *

Please note, that the following information is automatically transferred from the full-proposal phase and does not have to be edited for the dissemination plan.

The expected impact of the project on the different levels such as

- Expected contribution to the reduction in the cost of CSP power, life-cycle environmental impact and other relevant Key Performance Indicators
- Expected impact on Work Programme (SC3-JA-1) objectives
- Expected ability of the project to enhance innovation capacity and integration of new knowledge in the European solar power industry
- Future market deployment potential of the proposed innovation
- Project's ability to strengthen the competitiveness and growth of European companies by developing innovations that meet the needs of European and global solar power markets and, where relevant, deliver these innovations to the market;

You have a maximum of 10000 characters

COMMENT ON CHANGES

You have the possibility to report on changes in this section under "comment on changes" at the top left of each section.

In case there are changes made to this section in comparison to the previous phase, please state these changes here. Do not forget to press "save". The input here will also appear in the factsheet below the corresponding section.

N. DISSEMINATION AND COMMUNICATION ACTIVITIES

Please note, that the following information is automatically transferred from the previous proposal phase and can be updated for the current proposal phase.

1. Please give an elaboration of the dissemination plan for your project. For this purpose we kindly ask you to specify the number of dissemination and communication activities linked to the project for each of the following categories:
Organization of a conference / Organization of a Workshop / Press release / Non-scientific and non-peer-reviewed publication / Exhibition / Training / Social Media/ Website / Communication campaign / Participation in a conference / Participation in a workshop / Participation in other events / Video or film / Brokerage event / Pitch event / Trade fair / Participation in activities organized jointly with other EU projects / Other

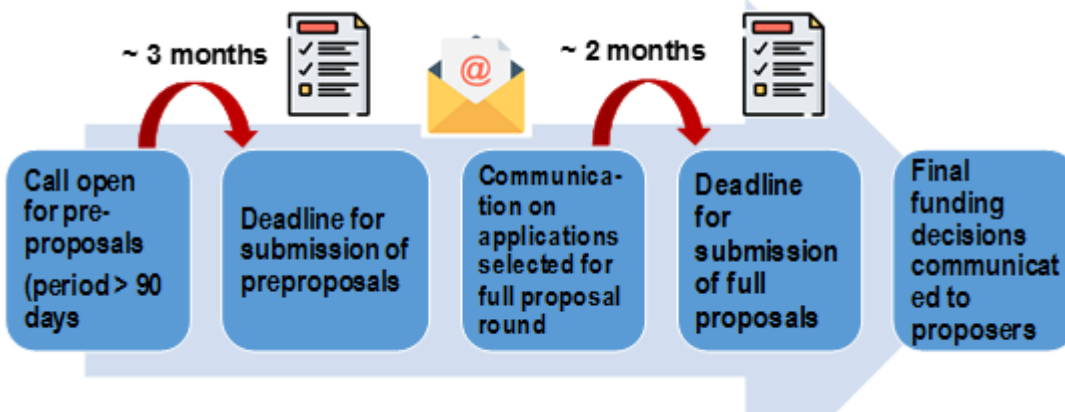

Please address in your dissemination plan, who is the target group, the interested community and stakeholders.

2. You also have to possibility to upload a customised dissemination plan under "Document Upload" in PDF Format. (max. allowed file size: 2 MB, max. allowed pages: five pages)

Please be aware that all data concerning your dissemination activities will be tracked in the upcoming annual project reports.

You have the opportunity to upload up to 4 images in sections A to E. All pictures need to be uploaded in section "image upload". To insert them, you enter the place marker "[[figureX]]" into your text (where the image should appear). By replacing the X with the number of the image you create the link to the image.
